

VIMEXPO

3-year journey with the mission "Connect to develop"

Accurately assessing the limitations of the development of Vietnam's supporting industry in particular and the manufacturing industry in general, the Government's Resolution No. 115/NQ-CP dated August 6, 2020 on solutions to promote the development of supporting industries proposes the solution of developing domestic value chains.

Vietnam International Supporting Industry & Manufacturing Exhibition (VIMEXPO) is the first international exhibition belonging to the Supporting Industry Development Program hosted by Vietnam Industry Agency - Ministry of Industry and Trade. The exhibition is the opportunity to connect suppliers with domestic and international consumption markets, helping to find out import and export needs as well as

trends in the use of industrial components and spare parts, promoting new technology transfer and expanding business network, meeting production needs at the present time and seeking potential business opportunities in the future. The successful organization of Vietnam International Supporting Industry & Manufacturing Exhibition is of great significance, contributing to making Vietnam a manufacturing center in Southeast Asia, promoting the development of manufacturing and supporting industries, creating widespread coverage and affirming active participation in the global supply chains.

In 2022, VIMEXPO – "Connect to develop" aims at becoming the leading comprehensive specialized exhibition in Vietnam serving manufacturing and supporting industries. VIMEXPO with a series of trade promotion events will be held annually, the Organizing Board always updates trends, expands multimedia communication, widely connects domestic and international organizations in order to bring maximum benefits to units - exhibitors participating in the exhibition.

Connect - Opportunity - Promote - Honor

Mr. Nguyen Sinh Nhat Tan - Deputy Minister of Industry and Trade

"...In the context that the Party, National Assembly and Government, together with the business community are making efforts to promote economic recovery on the basis of safe and flexible adaptation to the Covid-19 pandemic, with the orientation "Connect to develop", Vietnam International Supporting Industry & Manufacturing Exhibition - VIMEXPO 2021 will become even more important with its role as a bridge between Vietnamese enterprises and foreign enterprises, multinational corporations; creating opportunities for exchanging and sharing experiences among agencies, organizations, associations, sectors and enterprises operating in manufacturing and supporting industries, helping businesses promote products, technologies and increase investment opportunities..."

Mr. Choi Joo Ho - General Director of Samsung Vietnam Complex

"...Samsung Vietnam is very delighted to participate in VIMEXPO 2021, I hope this is a good opportunity for more and more leading Vietnamese enterprises to participate in the global supply chains. After officially investing in Vietnam since 2008, Samsung has always strived to contribute to Vietnam's supporting industry through a variety of intensive supporting activities. Based on the business criterion of co-prosperity, in the coming time Samsung Vietnam will strengthen cooperation with the Vietnamese government and organizations to do training activities related to supporting industries in many more specialized fields..."

Mr. Gareth Ward - UK Ambassador to Vietnam

"...Despite many difficulties due to Covid-19, the UK Government and Vietnam Ministry of Industry and Trade still strengthen development cooperation in order to improve the capacity of Vietnamese supporting industries, ensuring that Vietnam always receives the most benefits from the global supply chains. I believe and hope that our cooperation will continue to develop in the post-Covid period..."
